Profile of Degree Program	<p>The Faculty of Management and Public Science prepares the masters in «Management». The specializations are:</p> <ol style="list-style-type: none"> <li>1. Projects Management</li> <li>2. State and Municipal Management</li> </ol> <p>The principles of the selection and admission of the students are determined in the Charter of admission.</p> <p>The Finance Academy describes the specialty in such a way: «The 4-years bachelor program in this field includes studying in quite big volume the economic block of disciplines both as fundamental and applied (micro- and macroeconomics, economics and economic studies history, international economics and international economic relationships, modern problems of international economics, the RF monetary system, organization (enterprise) economics, statistics, financial management, accounting, analysis and audit and so on) as well as direct managing disciplines (management, organizational theory, organizational behavior, marketing, state and municipal management, strategic management, managing decisions elaboration, innovation management, operational management, staff</p>

	<p>management, projects management, logistics, quality management, benchmarking management and so on). In the curriculum there are also blocks of mathematical and general education disciplines, in the course of 6 semesters the students study a foreign language. In the course of education the students of the direction «Management» specialize in concrete disciplines of this direction».</p> <p>After completion of training it is necessary to pass an interdisciplinary exam and thesis defense.</p> <p>Every discipline can be covered on the basis of occupied learning/subject field by a staff candidate or a professor. According to the Financial Academy all the staff professors teach in more than one area.</p> <p>The following teaching methods are implemented to the discipline both the traditional forms of learning process organization: lectures, laboratory research and practice; and active and interactive educational forms: business plays, situations analysis, conferences, round tables, trainings, presentations, computer testing that are realized in education laboratories.</p> <p>The bases of the internships are the Ministry of Economic Development, the Moscow City Property Department, the Moscow City Control-Audit Chamber, the RF Audit Chamber as well as other organizations.</p>
Agency Review Summary	<p>The auditors following the results received in the course of accreditation process have drawn the conclusion of program compliance with the AKKORK criteria and standards. On the basis of auditors' report the Accreditation Council have made a decision on program accreditation. As positive program aspects can be mentioned the following: structure and program content, its practical orientation; education and methodic materials quality; applied education technologies and methodic, competency and qualification of the teaching staff, general students' satisfaction of education program, program quality and infrastructure; quality management system. In the course of accreditation there were identified program aspects that have to be improved, that is why the HEI has received appropriate recommendations.</p>
